Professional Summary

Motivated and detail-oriented aspiring IT professional with foundational knowledge in computer hardware, operating systems, networking concepts, and web development. Certified through Cisco Networking Academy in HTML Essentials, Operating Systems Basics, and Computer Hardware Basics. Currently studying Information Technology and Computer Science while developing practical skills in programming and web technologies. Seeking an entry-level IT support, junior developer, or technical support role where I can contribute technical skills, solve problems, and grow within the IT industry.
